

Explore Calian's care collaboration platform

Experience seamless and integrated patient care

The Calian® Corolar™ platform offers a customizable solution that bridges virtual and in-person care to simplify processes and improve communication across your organization. Not only can clinicians easily access patient data to ensure better outcomes, but they can also check in with patients directly online for better engagement and adherence.

Why choose Calian?

Proven track record

We have streamlined processes for large health authorities across Canada.

Leading-edge technology

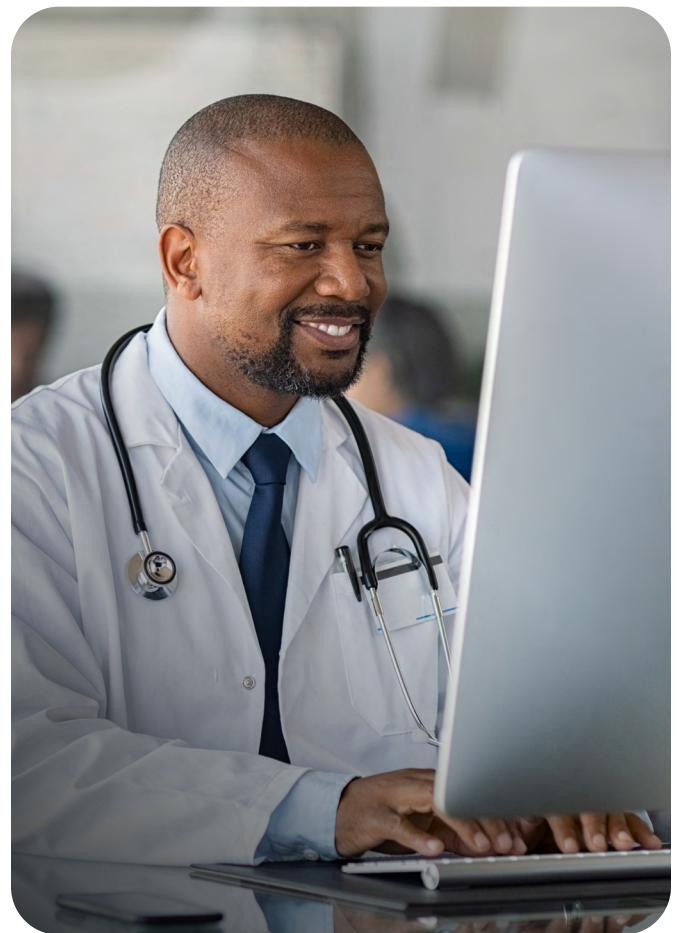

Our platform allows users to manage virtual walk-ins, schedule appointments and triage patients via one simplified view.

Customized pathways

We offer configured services, regardless of the complexity or number of clinic sites.

Training

Users will feel comfortable navigating the platform to make use of all features.

Key services

Enabling collaboration

Clinicians easily access patient status and history—and can leave updates online.

Customizing services

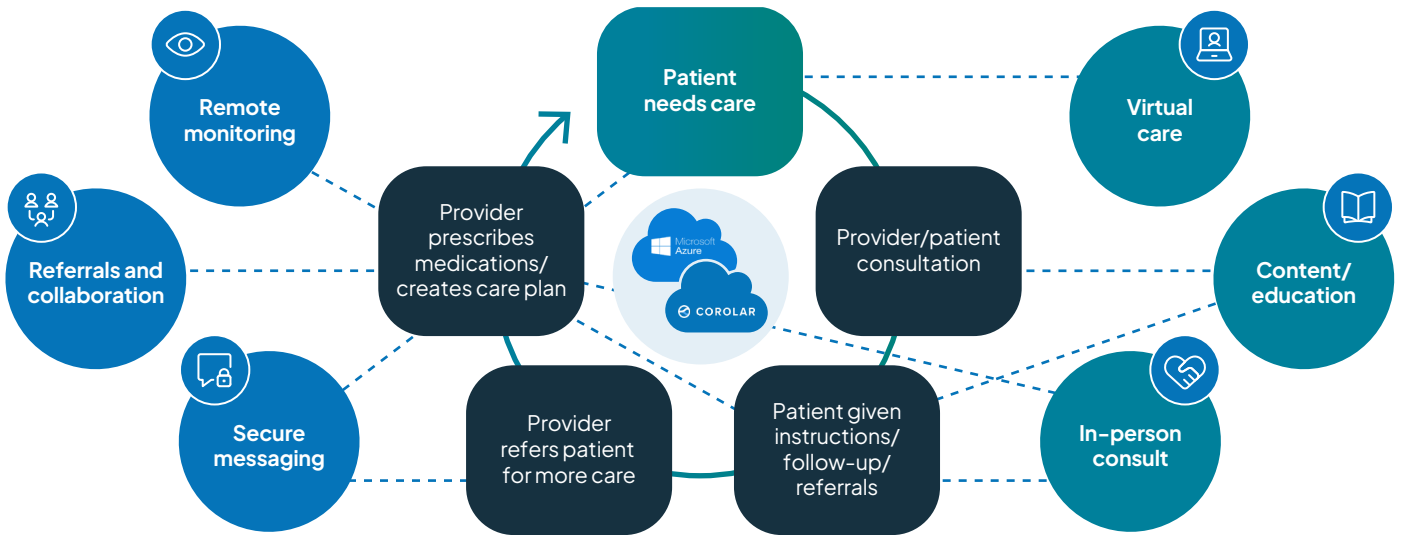

Users can design and configure forms and interactions for different clinic types.

Engaging patients

Our platform provides two-way communications between clinicians and patients via a secure chat feature.

Seamless schedules

The built-in appointment scheduler integrates with EMRs and EHRs to simplify patient check-in.
